YUKON
LARGER THAN LIFE

A Step Back in Time

Yukon River Wilderness Canoe Expedition

11 days - 10 nights, Novice to Intermediate Paddlers

The mighty Yukon River runs through the old green-mantled, mountain ranges of the central Yukon. Relaxed paddling on smooth current takes us through a remarkable region full of the lore of the Klondike Goldrush. It is a mighty river with a heart of gold that shares the secrets of its recent history through its outdoor wilderness archives. A paddle down its length is a magical step into the past with the long-abandoned remains of cabins, paddle-wheelers, dredges and placer mines. This river bestows on paddlers not only the beauty and challenge of a northern canoe trip but also a remarkable step back in time. Fort Selkirk holds the secret of the Tlingit and Tutchone First Nations over thousands of years. Wildlife could include moose, Dall sheep, bears, raptors and an occasional caribou! Timing on this river trip is still a challenge but is designed to have a more leisurely pace than our other northern rivers. An iconic and majestic river! There are no portages, few bugs, some hiking and beautiful, pristine scenery. It is such a thrill to paddle into Dawson City! The Yukon River is an introductory trip perfectly designed for beginner, novice or intermediate paddlers.
