Heartbeat of the Barrenlands

Upper Horton River Wilderness Canoe Expedition

12 days - 11 nights, Novice to Intermediate Paddlers

This is the most northerly flowing river in mainland Canada. Perfect for novice/intermediate canoeists, its steady current offers a few easy rapids for extra fun. Ancient cliffs are home to towering eagle and falcon nests while caribou, wolves, muskoxen and grizzly bears roam through remnants of ancient fences used by Inuit to funnel caribou into spearing zones. The rolling tundra is dotted with dwarf spruce defining the northern limit of the tree line. Clouds paint dizzying patterns in streaks and the midnight sun barely dips below the horizon. Evening walks on the tundra are a nightly ritual giving a sense of how small we really are in this vast landscape. World-class fly-fishing is sure to produce catches of arctic grayling, lake trout and prized arctic char. Temperatures range in the twenties, but a snap frost can occur if a cold front slides in from the arctic coast. The landscape is stunning creating the opportunity for capturing exciting wildlife or wildland images.

Included on NWT Trips: Airport pick up and return in Norman Wells (complimentary airport shuttles are available in Yellowknife and Edmonton); charter flights to and from river; canoe with spray deck if required; paddles; personal floatation device; all quality camping equipment, tents and gear including personal gear pack if required; expedition food; guides.

Not Included on NWT Trips: Accommodation and meals in Yellowknife and Norman Wells including at the Canoe North Adventures Lodge; commercial flights to Norman Wells via Edmonton, Calgary or Yellowknife; trip cancellation, evacuation and medical insurance; personal gear and clothing; sleeping bag and sleeping pad; guide gratuities.
