

GREENLAND & WILD LABRADOR

SEPTEMBER 18–OCTOBER 2, 2018

ADVENTURE
CANADA

This extraordinary sailing showcases staggering geographic diversity, covering over 2,200 nautical miles from the head of Sondre Stromfjord in Greenland all the way to St. John's, NL—stopping at four Canadian National Parks along the way.

We set out along the western coast of Greenland, calling at Nuuk, one of the world's northernmost capital cities, and exploring one of the many fjords for which the area is famed. Across Davis Strait in Canada, we visit stunning Torngat Mountains National Park—the first and only National Park in Canada to be staffed completely by Inuit. Here, at the edge of the Canadian shield, massive mountains slope down to the Labrador Sea, forming one of the most dramatic coastlines in Canada. Northern Labrador has to be seen to be believed—and we will do just that, via daily Zodiac expeditions and organized excursions.

As we move further south, we'll visit the newly created Akami-Uapishk-KakKasuak—Mealy Mountains National Park Reserve, Canada's 46th National Park; encompassing 10,700 square kilometres, it is the largest in eastern Canada. Crossing the Strait of Belle Isle to Newfoundland, we'll pay our respects to North America's Viking visitors at L'Anse aux Meadows. While in Newfoundland, we'll explore Terra Nova National Park before ending our voyage in historic St. John's.

DETAILED ITINERARY

Day 1 | Kangerlussuaq, Greenland

Our flight from Toronto will land at the former US air base of Kangerlussuaq. From there, we follow the longest road in Greenland (at twenty kilometres!) to our disembarkation point, where Zodiacs await to take us to the *Ocean Endeavour*. From there, 168 kilometres of superb scenery await us as we sail spectacular Sondre Stromfjord, one of the longest fjords in the world.

Day 2 | Qeqqata Kommunia

There are a number of charming fishing villages along the west coast of Greenland. Depending on timing and sea conditions, we may call in at one of these communities to experience small town Greenlandic life, or explore the stunning fjords that line the coast. This is a day in the true spirit of expedition travel and we will avail ourselves of any and all opportunities that present themselves.

Day 3 | Nuuk

Welcome to Nuuk, the capital of Greenland and the world's northernmost capital city! Nuuk, meaning 'the headland' is situated at the mouth of a gigantic fjord system. Established as Greenland's first town in 1728, Nuuk remains the bustling centre of the country today. The town is home to the University of Greenland, a cathedral dating back to 1849, and Greenland's National Museum. We'll have a guided orientation of this bustling metrop-

olis and an opportunity to visit the National Museum—where the Qilakitsoq mummies are housed—before free time to explore on your own.

Day 4 | At Sea — Davis Strait

Our presentation series takes centre stage as we head across the Davis Strait towards landfall in Canada. Time spent on deck can be rewarding as well: keep your eyes peeled for minke and humpback whales (and other marine mammals), as well as the seabirds that are sure to accompany our passage.

Day 5 | Kangiqsualujjuaq (George River)

Twenty-five kilometers upstream from Ungava Bay, in the shelter of a commanding granite rock outcrop we find the community of Kangiqsualujjuaq. The ebb and flow of the tremendous tides define the summer lives of the people and wildlife of this area. Arctic flora thrives in the protected valley. The traditional calving grounds of the critically declining George River caribou herd are nearby. After our community welcome, we will have the freedom to explore, meet with locals and strike out of town for a hike on the tundra.

Days 6–8 | Torngat Mountains National Park

The Torngat Mountains have been home to Inuit and their predecessors for millennia, with archaeological ev-

idence reaching back almost 7,000 years. The fjords here reach deep into the heart of the mountains, bounded by cliffs peaking at 1,700 metres—the highest point of land in Labrador. The rugged, spectacular beauty of the Tornat Mountains underscores their role as the spiritual homeland of Nunatsiavut. Polar bears, caribou, falcons, and eagles are among the species hardy enough to make their homes here. We'll spend our time here getting out on the land for hikes, searching for wildlife, visiting ar-

chaeological sites, and Zodiac cruising through some of Canada's most dramatic landscapes.

Day 9 | Hebron

In a highly controversial move, the former Moravian Mission station dating from the 1830s was abandoned in 1959 with the departure of the Moravians, forcing the relocation of the Inuit who resided there. In 2005, Newfoundland and Labrador Premier Danny Williams

apologized to people affected by the relocations, and in August of 2009, the provincial government unveiled a monument at the site. Today, some of the buildings at Hebron are being repurposed as a cultural interpretation centre. They form a lonely monument to the cultural past of the area, with hopes for the future of Nunatsiavut.

Day 10 | Nain

Today we explore the vibrant Inuit community of Nain. The administrative capital of Nunatsiavut, Nain is the most northerly community in Labrador. We'll visit the beautiful Moravian Church, the Nunatsiavut Building with its Labradorite stone and the newly finished Torngâsok Cultural Centre. Local leaders will share the fascinating history of the township, and we will have a chance to visit with the community.

Day 11-12 | Labrador Coast

The lower Labrador coast boasts five of Labrador's ten provincial eco-regions, including coastal barrens, high subarctic tundra, high boreal forest, mid-boreal forest, and string bog. The Mealy Mountain range in this area reaches heights of more than 1,000 metres. A significant portion of the mountain range and surrounding area has been designated a National Park Reserve, a move which followed lobbying for the preservation of the area since the early 1970s. We plan to visit the Wonderstands, a stunning fifty-six-kilometre stretch of beach, referenced in Viking sagas.

Day 13 | L'Anse aux Meadows

A UNESCO World Heritage Site and National Historic site, L'Anse aux Meadows is the only authenticated Norse settlement in North America. The archaeological remains found here in 1960 date to approximately 1000 AD. Amazingly, the location of the ruins was first established by a close reading of the Viking sagas. Today, a superb interpretive centre and reconstructions of the several Norse-style sod buildings make L'Anse aux Meadows a must-see for any visitor to Newfoundland.

Day 14 | Terra Nova National Park

Today we call in at Newfoundland and Labrador's first national park, Terra Nova, located in beautiful Bonavista Bay. Our approach course will wind through the scenic small islands that dot the route. Once ashore, we have a variety of hiking opportunities in the park, where we hope to observe some of the black bears, osprey, and moose that call the park home.

Day 15 | St. John's, NL

Sailing into the port of St. John's has to be experienced to be believed; Signal Hill keeps watch over the world-famous Narrows and the charming houses of The Battery will have cameras whirring! The bustling city of St. John's with its colourful houses and steep streets makes a spectacular backdrop to the legendary harbour where we will bring our journey to a close.

This is our proposed itinerary. It is highly probable that weather, sea conditions, and unforeseen circumstances will not allow us to travel this exact route. Our Expedition Leader and the ship's captain will determine our exact route day by day.

PRE-DEPARTURE INFORMATION

ONLINE PROFILE

Adventure Canada collects personal information from our passengers via secure online account. You are required to provide select medical and personal information, as well as acknowledgement of select

liabilities. Personal information is collected for crew and passenger safety reasons, and by signing up for an adventure, you consent to the collection of the personal information. You may refer to our Privacy Policy at www.adventurecanada.com/privacy. Online accounts are established by booking reservations. This means that all passengers on a given reservation will have access to each others' information. You will be asked to acknowledge this process on our reservation form by checking the box 'I/we agree that all passenger details will be viewable by all persons on this registration/reservation'. If you prefer to have individual access to the online account, please do not check this box on the reservation form and advise your Adventure Specialist by phone or email. If you prefer to provide your personal information to Adventure Canada by mail or fax, please contact us and we will send you paper copies. We ask that your personal information be completed at your convenience, but no less than 120 days prior to departure. You will not receive your final documents until these forms are completed and submitted.

PASSPORTS & VISAS

Passports are mandatory and must be current, with a date of expiry at least three (3) months after the trip's conclusion. Participants are responsible for obtaining personal visas, passports, health certificates and other required documents and inoculations at their own expense. Entry to another country may be refused even if the required information and travel documents are complete.

ACTIVITY LEVEL

Although Adventure Canada endeavours to accommodate any passengers, subject to the specific characteristics of the vessels, accommodations, itineraries and terrain of our excursions, Adventure Canada expeditions necessitate that passengers be in reasonably good health. Zodiac cruises and transfer times can be lengthy. You must be able to climb stairs between decks on the ship. You must also be able to climb the external gangway stairs to transfer between the ship and the Zodiacs. Our guides and ship crew are available to assist you in and out of the Zodiacs, both on shore and at the gangway. Adventure Canada expeditions may involve extensive walking in variable weather conditions over sometimes sandy or uneven terrain. Wherever possible on shore excursions, we break into smaller, guided groups according to interest and physical ability. This may mean one small group going off

on a strenuous, two-hour hike on steep terrain, while another explores the area in and around the landing beach, keeping to relatively level terrain and short distances. Generally speaking, once a few people are ready to return to the ship, the Zodiacs are usually available to take you back at the time of your choosing. To inquire about whether our adventures are suitable for you, please do not hesitate to contact us.

ZODIAC CRAFT

Zodiacs are the favoured means of transportation for all our expeditions and, indeed, wherever shallow waters and beaches ring the shoreline. They are stable, versatile craft that cruise at approximately four knots; in windy weather they can make for rather splashy rides. We therefore recommend wearing wet weather gear for Zodiac transfers. Life preservers are absolutely compulsory and will be provided. Zodiac landings will generally entail disembarking onto rocky or gravelly beaches. The beach landings may be wet, meaning that there may be some spray enroute to shore, and that you may have to step into water up to 25 centimetres / 10 inches deep. Rubber boots will be provided.

MEDICAL FACILITIES

Passenger safety is of utmost importance to us. This expedition is intended for persons in good health, and thus our adventures may not be suitable for those who are not fit for long trips for any reason, including disability, heart, or other health conditions. Should any such condition become apparent, or should passenger safety become a concern, we reserve the right at our sole discretion to decline embarkation prior to the commencement of the tour or to disembark passengers prior to the completion of the tour. Our vessel is not equipped to handle serious medical conditions. Medical and Emergency Evacuation insurance is mandatory. A ship's doctor will be in attendance in the ship's small medical clinic to attend only to passengers' basic health needs. If you require specific medications, please ensure that you bring a supply adequate to last you for the duration of the journey and take care to properly pack them to ensure safe transport. Once aboard ship, we will be travelling in remote communities where prescriptions cannot be replaced. There is a fee for consultation and treatment by the onboard doctor. Any charges will be debited from your onboard account. To inquire about whether our adventures are suitable for you, please do not hesitate to contact us.

GRATUITIES

Our ships' crew work hard to please, and tips are heartily appreciated. In fairness to all those who work together to make your trip enjoyable, tips are collected at the end of the voyage and distributed equitably among the crew. Although we leave tip amounts to your discretion, past passengers have asked for a recommended amount. We suggest a rate of \$15 USD per day, per passenger. Gratuities will be automatically added to your shipboard account: you may advise the purser onboard if you would like to increase or decrease the tip amount. Adventure Canada staff does not accept tips.

AIRFARE

When purchasing your airline tickets to meet us at our point of departure, please ensure that they are changeable or refundable; Adventure Canada is not responsible for missed connections due to late charter flights or changes / delays / interruptions in the ship's intended itinerary and will not reimburse you for rebooking fees or new ticket charges incurred.

DISCOVERY FUND

We believe in sustainable social and environmental practices, and commit to upholding standards of responsible travel. We encourage our partners to do the same.

In 1996, Adventure Canada established the Discovery Fund to help strengthen sustainable initiatives and projects in the regions to which we travel. Supported by a \$250 USD fee added to the price of each tour sold, the Discovery Fund allows passengers to take an active role in the betterment of our world.

The Discovery Fund Fee directly assists local and national organizations in social and economic community

development in addition to environmental and wildlife preservation. Each year, we endeavour to extend our support to both high profile and grassroots ventures.

By travelling with Adventure Canada, you are helping ensure that our planet's irreplaceable treasures will endure for generations to come!

Thank You!
