# Your Adventure Canada Experience

*Immerse yourself in the wonders of nature and culture. Travel alongside scientists, historians, naturalists, cultural ambassadors, and artists, who share their passion and experience with you.*

**A**dventure Canada's expeditions are more than phenomenal expeditions of a lifetime, they are lifelong learning journeys for the heart and mind. Your expedition is an immersive cultural experience both on and off the ship.

Our shipboard program is educational and fun. You can join daily presentations, debates, and workshops that provide perspective and understanding. Our expedition staff—experts

**OUR EXPEDITION STAFF—EXPERTS IN THEIR FIELDS—ARE APPROACHABLE, AVAILABLE ON DECK AND AT MEALS, AND ALWAYS ON SHORE DURING EXCURSIONS**

in their fields—are approachable, available on deck and at meals, and always on shore during excursions. Our unique mix of entertainment and camaraderie is integral to our evening concerts, daily gatherings, and learning opportunities.

Each day, your onboard and onshore programming is thoughtfully planned to make the most of the local environment. Hiking, wildlife viewing, historic sites, community visits, and Zodiac cruising are regular activities. You can spot wildlife from the deck, take a polar plunge, relax in the hot tub, take care of yourself at a stretch class, or unwind with a great book from our onboard library. You choose the activities that are best suited to your abilities and interests.

# Enriching Expeditions in Spectacular Locations

## Your personal voyage of discovery

Explore and learn about new lands and people as you experience the rich culture and fascinating landscapes we sail to. Take the road less travelled and enrich your perspective during visits to communities, natural habitats, and historic sites that can be otherwise difficult to reach.

Our expeditions are designed to be flexible and allow us to make the best of Mother Nature's conditions. We often make landfall at new places and are able to share new discoveries and local knowledge with you. Your voyage will be marked with thoughtful discussions, expert interpretation, and the spirit of discovery.

## Get off the ship, get into a Zodiac!

Cruise among icebergs; search for marine mammals; visit an Inuit hamlet; wander remote coastline... simply enjoy the freedom of being out on the water daily! Our goal is to get you off the ship, as often as possible.

Zodiacs free us from the dependency on ports, piers, and other man-made infrastructure. These safe, stable, versatile boats that take you where the action is.

©Antje Springman

## Learn from passionate experts

Why would an esteemed Canada Research Chair, for example, travel with us on a working vacation? It's simple: they can't resist the opportunity to engage, excite, educate, and enlighten you! Make the most of every learning opportunity, aboard and ashore, in geology, botany, marine biology, archeology, photography, cultural history, and more!

Our hand-picked experts are as excited as you are to be on board. Join them on deck searching for wildlife, share daily meals for personal indepth conversations, participate in workshops, attend presentations, and learn on the land. The Adventure Canada team has a deep love for discovery, learning, exploration, and growth, and are at your service.

©Michelle Valberg

## Experience local culture and traditions

From Arctic communities to the fishing villages of old New France, to the outports of Newfoundland and Labrador, we embrace local music, dance, food, language, and traditions, everywhere we go!

Expedition travel isn't just about what you see, or where you go. It's who you meet and get to know.

©Dennis Minty

## Wildlife encounters

Daily excursions with expert guides put you where you are most likely to see wildlife: whales and seabirds in Atlantic Canada; muskox, seals, and polar bears in the high Arctic. Whether viewing on deck, in the Zodiac, or learning during our presentation series, you'll come away with an appreciation for the fine creatures that inhabit our world. Our best practices ensure the safety and integrity of the wildlife we have the privilege to view.

## **DAY 1: KANGERLUSSUAQ, GREENLAND**

Kangerlussuaq is a former US Air Force base and Greenland's primary flight hub. After our charter flight from Toronto, we will transfer to *Ocean Endeavour* by Zodiac.

Søndre Strømfjord is one of the longest fjords in the world: 168 kilometres of superb scenery. Steaming down this dramatic fjord we'll cross the Arctic Circle—from the north!

## **DAY 2: SISIMIUT COAST**

West Greenland's complex coastal waterways, which include glaciers, islands, and fjords against a towering mountain backdrop. The waters are relatively warm here, due to the West Greenland Current and the sub-Arctic location. Abundant fauna and marine life have supported human habitation here as far back as 4,500 years.

## **DAY 3: ILULISSAT**

Ilulissat means "iceberg", an apt name for this site at the outlet of the Sermeq Kujalleq glacier—a UNESCO World Heritage Site and the source of many of the icebergs in the North Atlantic.

We will cruise in our fleet of Zodiacs to appreciate the icebergs, and visit the town of Ilulissat, with its museums, cafes, craft shops, and busy fishing harbour.

©Dennis Minty

## **DAY 4-5: WESTERN GREENLAND**

Exploring by ship and Zodiac along the west coast of Greenland, we have numerous options for expedition stops, to make the most of weather and wildlife conditions. Departing Greenland, we cross Baffin Bay toward Nunavut.

## **DAY 6: AT SEA—DAVIS STRAIT**

As we steam toward Nunavut, our resource staff will deepen your understanding of the Arctic. This is an excellent time to enjoy workshops, watch a documentary, or get out on deck. Keep your binoculars ready for minke and humpback whales, as well as the seabirds that are sure to mark our passage.

## **DAY 7: MITTIMATALIK (POND INLET), NU, CANADA**

Mittimatalik is a busy Arctic community in a beautiful setting, a fascinating place to wander. The cultural presentation at the Community Hall is not to be missed—handcrafted goods may be available here too.

## **DAY 8-10: TALLURUTIUP IMANGA (LANCASTER SOUND) & DEVON ISLAND**

We will spend three days exploring Tallurutiup Imanga (Lancaster Sound), one of the newest National Marine Conservation Areas in Nunavut. Narwhal, beluga, and bowhead whales transit and feed in this area. We'll cruise by ship and Zodiac in search of wildlife.

On the northern border of Tallurutiup Imanga lies Devon Island, the largest uninhabited island on Earth at over 50,000 square kilometres. Flat-topped mountains, glacial valleys, and a substantial ice cap give Devon Island its unique character. We will hike the tundra, cruise a glacier face, and seek wildlife from ship and by shore. Archaeological

©Michelle Valberg

sites with expert interpretation allow us to learn about the Inuit history of this now-abandoned island. We'll visit the remains of an RCMP and Hudson's Bay Company site at Dundas Harbour.

### DAY 11: BEECHEY ISLAND

In 1845, Sir John Franklin set out from England with HMS *Erebus* and HMS *Terror*, attempting to sail through the Northwest Passage. His crew overwintered at Beechey Island—where three of his men died.

Numerous search parties later used Beechey as a depot and rendezvous. Amundsen, Bernier, and Larsen visited Beechey. Thomas Morgan of the HMS *Investigator* was buried there in 1854 alongside Franklin's men. The graves and ruins of Northumberland House are a haunting memorial.

### DAY 12-13: PRINCE REGENT INLET

This passage marks an area rich in marine and avian life. Thick-billed murres, ivory gulls, beluga, narwhal, and bowhead whales reside in the ice-strewn waters. In addition to abundant wildlife, we'll delve deeper into the exploration of the Northwest Passage and mercantile efforts of the Hudson's Bay Company.

### DAY 14-16: KITIKMEOT REGION

The traditional territory of the Netsilik Inuit, the Kitikmeot Region consists of parts of Victoria Island, the adjacent part of the mainland as far as the Boothia Peninsula, King William Island, and the southern portion of Prince of Wales

Island. Recently, the Kitikmeot Region has been in the news since the finding of the lost ships of the Franklin Expedition in its waters. It is Nunavut's least-populated region, though wildlife abounds here both in the sea and on land. We will spend our time navigating the ice-strewn waters in search of wildlife.

We'll also call in at Uqsuqtuuq (Gjoa Haven) home of the Guardians of Terror Bay. The European name, Gjoa Haven, honours Roald Amundsen who overwintered in the bay for two years while searching for the Northwest Passage. Amundsen became the first European to cross the Northwest Passage, thanks to the knowledge and largesse of Inuit. The community has an excellent cultural centre and is well known for carvings and wall hangings.

### DAY 17: KUGLUKTUK, NU, CANADA

Located at the mouth of the Coppermine River, Kugluktuk is the westernmost community in Nunavut.

Iqaluktuutiaq (Cambridge Bay), NU, is an alternate disembarkation point, and may be used based on sea, ice, and weather conditions.

Today we will disembark the *Ocean Endeavour* and make our way to the airport to meet our charter flights to Yellowknife, NT.

Extend your voyage—join us on board Out of the Northwest Passage and save with our multi-trip promotion. **Call for details.**

## **DAY 1: KUGLUKTUK (COPPERMINE), NU, CANADA**

Located at the mouth of the Coppermine River, Kugluktuk is the westernmost community in Nunavut. Known for many years as Coppermine, the community reverted to its original Inuinnaqtun name—meaning “place of moving waters”—on January 1st, 1996. Our charter flight will land in Kugluktuk and we will embark the *Ocean Endeavour* by Zodiac.

Iqaluktuutiaq (Cambridge Bay), NU, is an alternate embarkation point, and may be used based on sea, ice, and weather conditions.

## **DAY 2-4: KITIKMEOT REGION**

The Kitikmeot Region consists of parts of Victoria Island, the adjacent part of the mainland as far as the Boothia Peninsula, King William Island, and the southern portion of Prince of Wales Island. Recently, the Kitikmeot Region has been in the news since the finding of the lost ships of the Franklin Expedition in its waters. It is Nunavut's least-populated region, though wildlife abounds here both in the sea and on land. We'll explore by Zodiac and on foot.

## **DAY 5: PRINCE REGENT INLET**

This passage marks an area rich in marine and avian life. Thick-billed murres, ivory gulls, beluga, narwhal, and bowhead whales reside in the ice-strewn waters. In addition to abundant wildlife, we'll delve deeper into the exploration of the Northwest Passage and mercantile efforts of the Hudson's Bay Company.

## **DAY 6: BEECHEY ISLAND**

In 1845, Sir John Franklin set out from England with HMS *Erebus* and HMS *Terror*, attempting to sail through the Northwest Passage. His crew overwintered at Beechey Island where three of his men died.

Numerous search parties later used Beechey as a depot and rendezvous. Amundsen, Bernier, and Larsen visited Beechey. Thomas Morgan of HMS *Investigator* was buried there in 1854 alongside Franklin's men. The graves and the ruins of Northumberland House are a haunting memorial.

## **DAY 7-8: TALLURUTIUP IMANGA (LANCASTER SOUND)**

We will spend two days exploring Tallurutiup Imanga (Lancaster Sound), one of Canada's newest National Marine Conservation Areas.

Large populations of marine mammals, including narwhal, beluga, and bowhead whales, transit and feed in this area. There is a great selection of landing sites available to choose from, depending on weather, wildlife, and sea conditions.

## **DAY 9: AUJUITTUQ (GRISE FIORD)**

Aujuittuq means "place that never thaws". 1,150 kilometres above the Arctic Circle, Canada's northernmost "civilian" community originated in the Cold War; in 1953, Inuit were relocated to Aujuittuq to boost Canadian sovereignty.

©Victoria Polsoni

©Victoria Polsoni

We'll be welcomed into the hamlet, where we will have a chance to meet members of the community, learn about their way of life, and hear their poignant stories.

#### **DAY 10-11: SMITH SOUND**

Smith Sound, an ancient Inuit travel route, divides Ellesmere Island from Greenland, and served as the main route for explorers and adventurers searching for the North Pole. Adolphus Greely, Sir George Nares, and Elisha Kent Kane all travelled these waters with varying degrees of success.

#### **DAY 12: AT SEA**

On this exploration day, we'll be making the most of what the wind, weather, and wildlife have to offer. Our expedition staff will scan for polar bears, walrus, whales, seals, and seabirds as we go.

#### **DAY 13-14: NORTHWEST GREENLAND**

We will explore stunning fjords that line the coast. Glaciers and icebergs abound here. In true expedition style, we will seek opportunities to hike, explore, and view wildlife as conditions allow.

#### **DAY 15: ILULISSAT**

Ilulissat translates literally into "iceberg", an apt name for this site at the mouth of the Ilulissat Icefjord—a UNESCO World Heritage Site.

The icefjord is the outlet of the Sermeq Kujalleq Glacier, source of many of the icebergs in the North Atlantic.

Here, we will cruise in Zodiacs to appreciate the icebergs. And we'll visit the bustling town of Ilulissat, with its museums, cafes, craft shops, and busy fishing harbour.

#### **DAY 16: ITILLEQ FJORD**

The west Greenland coastline is a rich mixture of islands and complex coastal waterways. As we enter the Arctic autumn, the tundra foliage will be in gorgeous colour. We will be making an expedition stop here to explore the landscape of wild Greenland.

#### **DAY 17: KANGERLUSSUAQ, GREENLAND**

Søndre Strømfjord is one of the longest fjords in the world and boasts 168 kilometres of superb scenery. We end our adventure by sailing up this dramatic fjord.

Kangerlussuaq, the town at its eastern head, is a former US Air Force base and Greenland's primary flight hub. Here we will disembark the *Ocean Endeavour* for our return charter flight to Toronto, ON.

Extend your voyage—join us on board Greenland and Wild Labrador and save with our multi-trip promotion. **Call for details.**

SHIP

# The Ocean Endeavour
